Subject: Important Update: Keynote Speaker Invitation for Gov. Palin - E&P Technology Summit North America, Houston, October 2008

Importance: High

Hi Janice,

I hope you are well.

I needed to update you on the Keynote Speaking Opportunity that I have offered to Governor Palin at the **E&P Technology Summit**, Hilton Americas – Houston, this October:

www.exproevent.com

We are tremendously pleased with the support for and evolution of the conference so far, and in particular with the growing representation that the **Alaska region** is gaining on the Conference Program.

I have recently confirmed the following individuals as Speakers at the summit:

- Kevin Banks, Director Oil & Gas, Department of Natural Resources, **Government of Alaska**
- Jeffrey Walker, Regional Supervisor, Field Operations, **Minerals Management Service – Alaska Region**
- Bud Fackrell, President, **Denali – The Alaska Gas Pipeline LLC (BP-ConocoPhillips JV)**

We also have the pleasure of being joined by the following senior Government figures who have confirmed their participation as Speakers at the summit:

- Randall Luthi, Director, **U.S. Department of the Interior's Minerals Management Service**
- Hon. Richard Neufeld, Minister of Energy, Mines & Petroleum Resources, **Government of British Columbia**
- Karen Harbert, EVP & Managing Director, **Institute for 21st Century Energy – U.S. Chamber of Commerce**

I am pleased to report that the Summit has already made a great impact in the Upstream community and a virtually complete list of Confirmed Speakers who have recently confirmed their attendance and presentations for October include:

- Gene L. Ames, GM, The Nordan Trust, **Chairman – Petroleum Technology Transfer Council (Summit Chairman)**
- Randall Luthi, Director, **U.S. Department of the Interior's Minerals Management Service**
- Stephen Brand, SVP Technology, **ConocoPhillips**
- Steven Hinchman, EVP Technology & Services, **Marathon Oil**
- Michael Bahorich, EVP E&P Technology, **Apache Corporation**
- Scott Heck, SVP Global Production & Technology, **Hess Corp**
- Hon. Richard Neufeld, Minister of Energy, Mines & Petroleum Resources, **Government of British Columbia**
- Steve Thurston, VP Deepwater, **Chevron E&P**
- Jim Farnsworth, President & COO, **Cobalt International Energy**
- David Latin, VP E&P Technology, **BP**

- Bud Fackrell, President, **Denali – The Alaska Gas Pipeline LLC (BP-ConocoPhillips JV)**
- Jim Sigmon, Chairman, President & CEO, **TXCO Resources**
- Jack Stark, SVP Exploration, **Continental Resources Inc**
- Jon David Caron, Project Engineering Advisor, **Anadarko Petroleum**
- Wishart Robson, Sr. Advisor to the CEO, Climate Change & Safety, **Nexen Inc**
- Doug Bloom, President, Energy Transmission West, **Spectra Energy**
- Tim Bradley, President CO2, **Kinder Morgan Energy Partners**
- Rob Morgan, COO Upstream, **Harvest Energy Trust**
- Dr. Peter Hartley, Director, Shell Centre for Sustainability & Professor of Economics, **James A. Baker III Institute for Public Policy, Rice University**
- James Lytal, EVP, **Enterprise Products Partners – Independence Hub Project**
- Arthur Boykiw, Director Oil Sands Systems, **Petro-Canada**
- Kevin Banks, Director Oil & Gas, Department of Natural Resources, **Government of Alaska**
- Jeffrey Walker, Regional Supervisor, Field Operations, **Minerals Management Service – Alaska Region**
- Howard Anderson, COO & VP Engineering, **Triangle Petroleum Corp**
- Francisco Ortigosa, Chief Geophysicist, **Maxus US Exploration – Repsol YPF**
- Jim Guion, VP Commercial Development, **Enterprise Products Partners – Independence Hub Project**
- Rob Saltiel, EVP, Performance (formerly SVP North & South America Business Units), **Transocean**
- Karen Harbert, EVP & Managing Director, **Institute for 21st Century Energy – U.S. Chamber of Commerce**
- Dr. Candy Albertsson, Independent Consultant, **Former Head of Talent Management, BP plc**
- Dr. Terry Engelder, Professor of Geosciences, **Penn State University**
- John Wood, Director Reserves & Production, **EIA**
- Steve McMillen, Special Counsel, **Baker Botts LLP**

On your last communication you did alert me to the fact that Governor Palin's schedule is indeed very busy (a fact which I do understand completely) and that it was not possible to give me a definite acceptance of my invitation back on June 3rd when I sent the invitation originally.

However, I must now respectfully ask whether you can confirm Governor Palin for this Keynote opportunity in view of the fact that several very senior Government and Industry individuals have firmly allocated this event in their schedules, due to the high-level nature of the gathering.

I feel that this would provide an excellent platform for Governor Palin toward some of the most respected and influential individuals and organizations in North American E&P and, alas, production timing and planning constraints are now upon me in order to finalize the meeting.

I very much appreciate your feedback and attention to this and I hope that the growing importance of the conference is recognized by the Governor and the administrative office of the Alaskan Government considering your role in the North American energy community and the important project proposals which are now coming to the fore in the Alaska region.

Many thanks for your ongoing help and interest in the conference.

Kind regards,

Tom

Tom Quinn

Subject: Keynote Speaker Invitation for Gov. Palin - E&P Technology Summit North America, Hilton Americas - Houston, October 2008
Importance: High

Dear Governor Palin,

I hope this email finds you very well and belated congratulations to you and your husband on the birth of your fifth child back in April.

I am the Conference Producer for **E&P Technology Summit** in Houston this October; I have some good news for you regarding the Conference Program and I needed to furnish you with this invitation.

I wanted to get in touch with you as the Government of Alaska has been highly recommended by your peers within the North American Exploration & Production industry in view of the innovative projects you are involved in with relation to your E&P collaboration work in the North American energy community. During my research for our upcoming North American **E&P Technology Summit**, your work was referenced a number of times and as a leading industry figure I would like to invite you to appear as a Keynote Speaker at this year's Summit. I have followed with interest your Government's achievements in this field during my time at *Petroleum Economist* journal in London and I, personally, would be delighted to have you involved.

The **E&P Technology Summit** brings together North America's leading Upstream executives to network, establish key relationships and learn about some of the most critical and innovative technologies and practices in the marketplace today. After three highly successful years of producing the Summit in Europe we are now crossing the Atlantic to provide a knowledge platform for the emerging and major operators in the Western Hemisphere. Details of October's Houston Summit can be found here:

www.exproevent.com

I am pleased to report that the Summit has already made an impact in the Upstream community and fellow Confirmed Speakers who have recently confirmed their attendance and presentations for October include:

- Randall Luthi, Director, **U.S. Department of the Interior's Minerals Management Service**
- Stephen Brand, SVP Technology, **ConocoPhillips**
- Steven Hinchman, EVP Technology & Services, **Marathon Oil**
- Mike Bahorich, EVP E&P Technology, **Apache Corp**
- Scott Heck, SVP Global Production & Technology, **Hess Corp**
- Steve Thurston, VP Deepwater, **Chevron E&P**
- Jim Farnsworth, President & COO, **Cobalt International Energy**
- Wishart Robson, Sr. Advisor to the CEO, Climate Change & Safety, **Nexen Inc**
- Doug Bloom, President, Energy Transmission West, **Spectra Energy**
- Rob Morgan, COO Upstream, **Harvest Energy Trust**
- James Lytal, EVP, **Enterprise Products Partners – Independence Project**
- Howard Anderson, COO & VP Engineering, **Triangle Petroleum Corp**

- Francisco Ortigosa, Chief Geophysicist, **Maxus US Exploration – Repsol YPF**
- Rob Saltiel, SVP North & South America Business Units, **Transocean**
- Dr. Terry Engelder, Professor of Geosciences, **Penn State University**
- Dan Naatz, VP Federal Resources and Political Affairs, **Independent Petroleum Association of America**

The Summit is scheduled for **October 27th-29th this year at the Hilton Americas, Houston** conveniently located in the Downtown City area.

This would represent an excellent opportunity to address the influential North American oil & gas community directly and present your E&P project experiences and successes. I'd be particularly interested in content focused towards your experiences with:

- Enhanced Oil Recovery
- Rising Project Costs
- Access to Resources & Legislative Challenges
- Workforce Challenges

Here are some ideas on key focus areas of the Conference Program; of course I would be very happy to hear your ideas and tailor this towards recent developments you may have encountered during your work. **I'd be particularly interested in a "big picture" view of the work that the Government of Alaska achieves and your perspective on Alaskan E&P for the future:**

The Last Frontier - Evaluating the viability of Alaska's mature fields and the fundamental challenge of bringing hydrocarbons to the North American market

- Outlining access to Alaskan resources and an overview of 40 years of Alaskan E&P; the established operators, the lessons learned and the new wave of emerging players in the coldest state
- Analyzing the latest pipeline projects and the challenges to be overcome in innovative engineering and hydrocarbon transportation over major distances
- Evaluating the technologies and strategies in play to meet the challenges of bringing hydrocarbons to market from a remote area
- Achieving balance in project costs and profitable hydrocarbon recovery from mature fields in Prudhoe Bay, the North Slope & Cook Inlet and managing increased E&P in hostile environments

Or:

Analyzing successful E&P strategies incorporating environmental responsibility and Government collaboration in Alaska; what we can learn as an industry and assessing the applications to your own operations

- A Poster-Child for Proactive E&P? – perspectives on working toward common energy goals whilst collaborating in economic growth and minimal environmental impact
- Assessing strategies in creating local prosperity, environmental stewardship and navigating remote and hazardous environments to unlock massive hydrocarbon resources
- Understanding technologies involved in unconventional and remote resource plays and applications across North American E&P for your operations

Naturally, I would be happy to work with you on the outline of your Presentation and tailor it to your own style and

expertise. **Please find the full Conference Program outlined on our website.**

As my personal guest, you would of course receive free access to the entire three-day event, including all networking opportunities, access to the conference program and meals at the Hilton Americas.

I will make a note to call you soon if I haven't heard from you to discuss this opportunity further and, of course, I'd be most interested to hear your expertise on the issues proposed. If you, yourself, are not able to take this opportunity, then perhaps you might be able to recommend one of your senior management for the role.

Many thanks and I look forward to speaking with you soon,

Tom

Subject: Re: Legislative Action Alert!

Couple of things went into consideration here.

First, our core supporters are fine, but that count only gets us to 10. We have amendments to worry about and possibly the effective date. Some of the folks on the edges asked if we could get letters to the editor and emails coming. This action alert was supposed to help drive emails and phone calls. There is a seperate track for letters to the editor.

Second, the list this was sent to is the newsletter list. It is far fewer in number than the business license list and its been in circulation for some time. People who don't want to be on it have probably let us know and been removed. I will verify whether it is an opt in or opt out system in the morning and be sure to stress that with press in the am.

Third, our solid supporters in the majority may not have a majority of their caucus...its close. They are not of a mind to push very hard without some cover. They need to be able to point to some outside forces if they are going to push against their leadership. Our only apparent ally within the leadership is Gary Stevens, and he's not exactly known for his fortitude.

Finally, I want to apologize to Mike, Kelly, and particularly to the Governor. I should have talked directly to each of you and did not. That's not team play and there may have been different judgements by each of you given these considerations. I didn't give you that opportunity and that wasn't fair. I am sorry.

Joe

Subject: RE: Legislative Action Alert!

We took heat before for using this tactic even though it was my idea. I thought things were looking promising for the senate to pass AGIA. Seems like a desperation move. Will Leggies feel too much pressured about this. Think this was necessary? Hope it does not back fire.

Subject: Legislative Action Alert!

LEGISLATIVE ALERT – CALL YOUR ALASKA SENATOR TODAY!

Top 10 Reasons to Vote "Yes" on Authorization to Issue the AGIA License to TransCanada Alaska Company, LLC and Foothills Pipe Lines, Ltd.

1. TransCanada Alaska Company, LLC ("TC Alaska") and its parent corporation, TransCanada Corporation, are high-quality companies in the business of building and operating natural gas pipelines throughout North America.

2. Through an AGIA license, TC Alaska makes legally enforceable commitments to:
   - Hire Alaskans;
   - Meet in-state energy needs;
   - Adhere to a firm timeline for project development all the way through FERC certification; and
   - Reduce tariffs and increase expansion opportunities that encourage exploration and development of the North Slope gas basin, which provide the basis for long-term careers, economic security and energy security for Alaskans.

3. If TC Alaska violates any legally enforceable commitments made under the AGIA license, consequences include recoupment of state reimbursements made under AGIA and state acquisition of project data acquired by TC Alaska during the license term.

4. TC Alaska offers a project that is economically and technically viable, and that maximizes benefits to Alaskans.

5. TC Alaska faces fewer permitting obstacles in Canada, and, as an independent pipeline company, does not raise the antitrust legal issues that might affect a producer-owned gas pipeline.

6. Award of an AGIA license to TC Alaska provides the opportunity to bring all parties together while still protecting Alaska's interests.

7. Award of an AGIA license does not commit the state to anything more than the inducements specified in the Alaska Gasline Inducement Act:
   - Up to $500 million reimbursement for qualified expenditures;
   - Benefits of an AGIA coordinator and expedited state permit review;
   - Exclusive enjoyment of the AGIA inducements prior to the commencement of commercial operation.

8. Award of an AGIA license to TC Alaska allows the state to assist smaller pipeline projects that can provide gas for instate needs or spur line projects off the AGIA mainline.

9. A gas pipeline company owned by major North Slope oil and gas producers, and that is not licensed under AGIA, may be subject to management decisions that reflect the best interests of

the owners, rather than the pipeline company. For example, the gas pipeline company may benefit from expanding the pipeline, but if such an expansion competes with producers' interests, the producer-owners may not allow the expansion.

10. Without authorization to issue the AGIA license to TC Alaska, Alaska will once again be dependent on the major North Slope producers for pipeline development and that means:
    - Project development on the producers' timeline that fits with their worldwide plans;
    - Negotiations on fiscal concessions with the producers holding most of the cards; and
    - Far fewer tools to protect Alaska's interests or to develop Alaska's natural gas resources in a way that maximizes benefits to Alaskans.

Call your Alaska State Senator TODAY and urge him or her to vote YES to award the state license to TransCanada.

Subject: RE: formal request for meeting and info

Date: 7-25-08 Friday 4:30 pm

Steve, if i may be so informal,

Now, you have me at a dissadvantage, i e-mailed you so long ago , I just figured you wrote me off,

or I did not contribute to the solution,

or I did not have enough passion,

or they could see me comming even bigger, now,

or too edgy,

or too pushy,

or tooo far ahead of my time ....Or,,.

Anyway, it is always my honor to be able to talk to you and most of your staff, I know you have to be busy,,,

Its too bad Energy seems to be moving/herding us/ me in a hurry...

I would liked to have had this emial from you before i drafted and sent my long commentaries to the legislature and other places yesterday and before,, and on the Fairbanks Coal Gassification project insider meeting..

In those commentaries i made an // or some accusations / or strong comments referencing you, you department, Coal /Fossil Fuel Marketers, and some of our leaders....

Perhaps you should read them prior to me being afforded a meeting... ha, ha.. humor

But really, in all fariness you should....read them....

But, for the record i still hold faith in you that you will help Alasks build a new great sociey based on New Energies... Harmonic Fuels based Energies....

Its just that when i see a gas fired genration plant in Anch and a Coal Gasificatioin project to the north,,comming out of the gates,,,, early no less, ...I get real concerned......very concerned....

You should read my letter to the Fairbanks Daily Newsminner.... ALso..

Thank YOu for the E.mail, my computer is not available to me right now -- I will call to see when you can see me..

Again, thank You,

Paul D. Kendlal "Will Free"

cell now,, 884-2424

land line msg... 222-7882

Now, I have to try to find some of those e-mails i wrote you that were a little on the strong side to see just how reserved i have to be.....ha ha

I am thinking we should meet on camera while your having your daily-weekly energy update on our great new alaska; and our many new and magnificent harmonic energy projects we have under way;

With the citizens being able to call in and add comments, and ask questions of you and your staff, and volunteer to help out....

You know, so we could all be a part of history,,, kinda like a ALASKA GOOGLE moment where we all build our history together....

A daily Energy show where honorable people could come to share ideas and dissagree with respect for each other, see pictures of new energy devices, while we build something very special,, "Individual Freedoms" through Clean Energy Ownership by the people..

---.A new Great ALASKA!

Pdk END ---------

Subject: formal request for meeting and info

Date: 6-30-08 Monday am

To: S. Haagenson (Director of Energy) AEA

From: Paul D.Kendall

Ref: Formal request for:

1. a relaxed and amiable meeting with you for general discussions; as just me being an ordinary citizen

2. a copy of the request that was made to ISER from AEA or others, for energy data, and when it is due; As well as some general discussion around the role of ISER

3. a copy of the recent report APA (Alaska Power Association?) recieved from Steve Pratt..This is a bigger talk, but needs to be a matter of recognition for future reasons

4. as of now ,, Rough cost and Expenditure amounts to date for rural awareness outreach

5..a rough outline of where you are headed for your summary and energy direction and pace of expectations and my informal e to you on 6-16-08

6.perhaps a brief discussion of my E-mail to Walt Wilcox with APA

7...and also, some clarifications and retractions i would like to make which need to be addressed

8. A need now for a Public Broadcast Energy Forum- the real deal....

9...and finally, some idea of my earlier energy single family home and society usages descriptions questions i posed for your departments to help me understand more about your information available to the public and the formulas you are using to determine energy use awareness

10..I think you should weigh in on this EMISSIONs program and take some leadership role with hydroelectric to jump start plug ins and electric vehicles and Photovoltaic Infrastructures

Mr. Haagenson, I remain excited about the potential and real "Alaskas Energy Future in relationship to Harmonic Fuels (electricity and water) abundance". And eager to hear your directions..hoping you will evolve us as you go so we can contribute in some way along the way to a new Energy Based Alaska Society...

I am more concerned than ever about how our leaders and our citizenry are going to make this new futur come to fruition.......make it happen, now !

(plug ins comming on line big time 2010 - honda fuel cell- bmw & ford HICE engines)

I look forward to having the honor and opportunity to meet with you if you decide to make that possible...

Sincerely and Respectfully,

Paul D.Kendall

Subject: Re: Kasilof River sockeye salmon personal use and sport fishery expansion

I am sorry but the response is incomplete and not factual. It is written in a tone that is dismissive and insulting.

There are reasonable questions about management actions, potential lies and misrepresentations of facts, and legal authority. Just writing a note that says we are in our legal authority and not answer specific questions does not help the discourse.

For example, how does the ADF&G and law resolve the issue of the 10 July restriction being announced two months prior to the season and the PMA case that dealt with this type of action.

How can a director of Commercial Fisheries tell the public two different stories in two different forums - I asked for a reference to the Board of Fish tapes which this Director said the staff listened too. No reference is provided so does that mean the Director of Commercial Fisheries Division lied to the public?

Relative to the emergency orders reducing bag limits in the sport fisheries there is a legal question about authority - what is that authority the ADF&G used to take these actions and how do they resolve those answers with the law saying the fisheries should be closed?

Please answer the questions with specifics not the arrogant attitude expressed in the attached letter.

Telling me to take something to the Board of Fisheries when in point of fact I am questioning the authority of ADF&G is just a silly meaningless comment.

The ADF&G leadership has been lacking for sometime and I guess the only recourse, if one cannot get reasonable answers, is to change the leadership.

I and others will be working with our local representatives to do just that in the upcoming elections, budget discussion for ADF&G, and other avenues to get straight and honest answers to reasonable questions.

Subject: Additional info re: mtg w/FERC

Governor,

I just spoke with TransCanada after their meeting with FERC. The message TC pounded home to Commissioner Kelliher was that the AGIA' expansion and Debt to Equity provisions of AGIA ensure the federal government monetary returns are $55 billion before the pipeline expands from 4.5 bcf/d to 5.9 bcf/d and $70 billion after expansion. Therefore the feds have a huge stake in the commercial terms provided by AGIA - just like Alaska does.

Subject: East-West Corridors/ Next Chapter

Further regarding my last email to you on this subject, we have followed up with Senator Stevens' staff and have learned the following -

- The Senator generally supports east-west corridors.
- He has directed his staff to search the archives to see what he has said previously.
- He is interested in the reason for our inquiry. In particular, he wonders whether Fairbanks to Nome or other east-west corridors are receiving greater attention and gaining momentum.

I believe that this information largely confirms my last email to you, but it also tells me that the Senator has not forgotten our inquiry, which he is taking seriously. More to come.

Subject: FW: HOT - FW: today's ADN editorial--good stuff

FYI, for FERC – not the attachments, the info below:

From: Rutherford, Marty K (DNR)
Sent: Friday, July 25, 2008 12:07 PM
To: Mason, Janice L (GOV); Perry, Kristina Y (GOV)
Subject: HOT - FW: today's ADN editorial--good stuff

Janice, Kris,
Attached are two documents for the Governor to use in her 2:30pm meeting today with the FERC representatives. One is a Background Paper on the structure of FERC and the individual FERC Commissioners. The second document includes some Talking Points for the Governor to read before her meeting and she can decide if she wishes to use any of them. Finally, please let her know that she will be meeting with Chairman Joe Kelliher (who the Governor has met numerous times in DC), Commissioner Phillip Moeller, & Mark Robinson (Director, Office of Energy Projects).

Additionally, just so the Governor knows, this FERC contingent has also met with Senate President Lyda Green & I believe Lyda included Senator Huggins in that meeting,;Senator Therriault; and via phone Representative Beth Kerttula. I am told they are also meeting with a TransCanada contingent that may include TC's CEO Hal Kvisle and their atty Kurt Moffett; Bud Fackrell, President of the Denali Pipeline; & they traveled to Prudhoe Bay with BP. My guess is they've also met with ConocoPhillips and ExxonMobil.

Finally, Drue Pearce wanted the Governor to know that she is very concerned that FERC does not appreciate what they will need to do to provide adequate "government to government consultation" with Alaskans during the permitting of the Alaska Gas Pipeline. Historically FERC does very diminimous outreach in their govt to govt consulations. Drue would appreciate your emphasizing Drue's message that FERC will need to work with the other federal agencies as well as ANCSA corporations and tribes as they design a consultation process that at least equals the one done as part of the TAPS 30 year renewal process.

Please ensure the Governor has all this information before her 2:30pm meeting. If she'd like to talk about any of this, please call me at #317-4728.
Thanks so much,
Marty

Subject: John Doe v. State of Alaska - State Supreme Court decision

Dear Governor Palin,

The state supreme court just issued a decision declaring that the registration requirements of the Alaska Sex Offender Registration Act cannot be applied to persons who committed their crimes before the law was passed in 1994. They determined that retroactive application of the law to sex offenders before 1994 would violate the ex post facto provision of the constitution. The state (us) had attempted to enforce the law retroactively and we have lost. I will forward you a copy of the decision shortly. Talis

Dear Governor Palin,

I am writing to you in support of my friend Chuck Kopp. I have known Chuck since junior high, and as we have "grown up" together I have seen him develop into a wonderful Christian man, full of integrity. The accusations and defamation of his character are outrageous. I am sure you well know that being in the political arena brings all kinds of attacks on a person and their family. It is sad to see. I just want you to know that I know Chuck will do a great job as Public Safety Commissioner. He has the confidence and ability to do the job well. I ask that you not let the media and the public who want to smear a man's reputation win on this one. As a friend to Chuck and Trish, my family and I stand by them.
